April 28, 1988

THEFT OF \$200,000 OF JEWELRY FROM  
THE HOME OF JOE GARGIOLA,  
PARADISE VALLEY, ARIZONA,  
MARCH 23, 1988;  
INTERSTATE TRANSPORTATION  
OF STOLEN PROPERTY -  
MAJOR THEFT

Between the hours of 6:30 p.m. and 10:08 p.m., unknown individuals, possibly two, gained entry into the home of Joe Gargiola by breaking a small hole in the window leading into the closet of the master bedroom. After unlocking and opening the window, the clothing items located on the shelf in front of the window were neatly stacked outside next to the window.

Footprints on the carpet of the bedroom indicate that once inside, another individuals was let in through the sliding glass door located in the master bedroom. After both individuals were inside, they went into the wife's dressing room area and the husbands closet area and removed two jewelry boxes containing various pieces of expensive jewelry. Numerous pieces of "costume" or cheaper jewelry was left behind. Other items of value, to include a video cassette recorder (VCR), television, etcetera, were also left behind.

Once the intruders exited the residence and crossed a six foot wall, they sorted out the jewelry, leaving the containers and the less expensive items on the ground. These items were located during the crime scene search.

The crime scene and jewelry boxes were processed for latent fingerprints with negative results.

It is noted that the victims and guests were home during the burglary eating dinner. They were located on the opposite side of the 8000 square foot house and did not see or

hear anything reference the burglary. From the location where the burglars crossed the 6 foot fence, all persons inside the residence could be observed.

The attached is a complete inventory of items taken:

Re Phoenix teletype to all offices, dated 3/25/88.

Enclosed for the Bureau are the original and one copy of an LHM regarding captioned matter. Enclosed for all receiving offices is one copy of same LHM.

Information for receiving offices, Phoenix Division is currently experiencing numerous residential burglaries in the Paradise Valley area which is described as primarily an exclusive residential area. With very few exceptions, the burglaries occur between the times of 6:00 p.m.-midnight while the owners are at home. It is believed that this time is chosen by the unsubs to insure that the alarm systems are not activated.

It is noted that the victim's homes range in size from 7,000 square feet to 10,500 square feet. Investigation indicates that unsub(s) watch the victims until they are all believed to be either in the family room watching TV or in the dining room. Quiet entry is then made on the opposite side of the home, avoiding the breaking of windows. Wooden blinds and window panes

PMM/sw

have been removed and placed outside the residence. If the breaking of a window is necessary, only a small portion, enough to allow the window to be unlocked, is broken.

Once inside, unsub(s) go directly to the wife's dressing room/bathroom/closet and neatly go through the drawers until high quality jewelry is located. They then proceed to the husband's similar area. Only the high quality jewelry and cash, if available, is taken. Other valuables, for example, guns, VCR's, etcetera are left behind.

The jewelry is usually left in the containers in which it was found. The area is left so neat that on occasion, the burglary is not discovered for several hours.

Once outside, the unsub(s) go to a nearby location which affords concealment. Here the high grade jewelry is sorted from the costume jewelry. Then the cheaper items, along with the containers they were found in, are discarded. On almost every occasion, a crime scene search uncovers, these items near the residence.

As many as two different sets of footprints have been discovered outside the window of entry. It is felt that a third individual acts as an observer/driver. On one burglary, one unsub was surprised by the owner. The only available description was a white male wearing dark clothing. No weapon was seen and the unsub quickly departed the area.

Currently, the total number of burglaries attributed to the group is approximately 40 with the loss totalling in excess of 1.5 million dollars, all in jewelry and cash.

Any positive information regarding this matter is requested to be provided telephonically to SA [redacted] Phoenix Division, with appropriate communication to follow.
